Years as facilitator: 10
of facilitations: 150

Biography

Phil Kristianson was born and raised in British Columbia, Canada. After apprenticing as a boat builder, and cabinetmaker, Phil followed his heart to Hawaii where, after adventuring around the islands and South Pacific, settled down and founded several companies, ranging from seafood importing to general contracting.

In 1988, Phil founded Hawaii Glass Block Inc. a distributor for Pittsburgh Corning Glass Block, and manufacturer of Glass block windows, walls, showers and floors, servicing the Hawaiian Islands and Guam.

In 2002, the entrepreneurial itch had Phil moving his wife Lilly and 3-month-old son Tanner to Northern California to start Sierra Glass Block, servicing the Northern California, and Northern Nevada markets. In Hawaii Phil was a recipient of the Small Business Administrations Young Entrepreneur of the year award, and in 1999 was asked to join the Young Entrepreneurs Organization. He was active on the board and was trained as a Forum trainer in 2000, and elected president of the chapter in 2002. Since moving to California, he has held several positions on the EO Sacramento board. Phil has also served as chairman of the Hawaii Remodelers Council, and President of The Honolulu Executives Association.

Phil has been active in Forum Trainings, and retreat facilitation for EO since 2002, and was selected as a Founding facilitator for the EO Accelerator Program, which is launched in 10 US cities in 2006/2007 and is underwritten by Mercedes Benz financial.

Phil is passionate about Forum, and has been recently focusing on Forum coaching training, and creating techniques for making Forum more efficient. Phil is EO Sacramento's Membership Chair.

When not engaged in his business, or facilitating work, Phil enjoys skiing, and snowboarding, fishing with his son, relaxing at home with his wife, and laughing until tears are flowing, with friends.
